

Why Do I have to Learn This Mr. H?

1. Because, simply put, it will make you a more educated person.
2. Because, just as simply, it will make you a less ignorant person.
3. Because you have the freedom and the opportunity to learn it while many people in the past, and many people today, have not.
4. Because you can learn it, and after you do you believe you can.
5. Because it may help you see your community in a way that you weren't able to without knowing it.
6. Because you can't really decide whether or not you want to know something, or whether or not knowing it will be valuable, until after you've learned it.
7. Because it will keep you from being taken advantage of by someone more informed than yourself.
8. Because it will give you something to think about.
9. Because it will may give you the clues or background to discover something yourself.
10. Because what your learning may represent some of the best work by some of the greatest minds in human history.
11. Because even though this may be difficult to learn I am here to help you.
